Get Behind The Diamond Jubilee Celebration Make July 1st and 2nd Real Jubilant Days!

Confederation Jubilee Friday and Saturday

60th Anniversary of Birth of Dominion Will be Observed by Populace of Coleman

To-morrow and Saturday will be celebrated in Coleman, as in all other towns and cities throughout the Dominion, the 60th anniversary or Diamond Jubilee of Confederation, whereby the provinces of Canada were united as a Dominion. It is an occasion which marks sixty years of progress, and especially is this noticeable in these western provinces, which, though they cannot claim in the matter of age as many years as can the eastern provinces or the maritimes, yet they show a remarkable record of development. It was in 1866 that the first Canadian Pacific train steamed into Calgary, and during the years that have passed branch lines have been built opening up immense tracts of country, thereby making possible, in Alberta and British Columbia, the mining and lumbering industries.

It is an occasion which Canadians may well be proud of, and its observance will undoubtedly awaken national conscience not only in the older people, but will also serve to impress on the minds of the younger people the fact that Canada is the most vigorous and prosperous among the self-governing Dominions of the British Empire.

Captain Watt of Salvation Army is Leaving Coleman

Services at the Salvation Army on Sunday will take the form of farewell services, and the captain will speak from Paul's farewell address to his apostles. Captain Watt and Lieutenant Webster are taking up duties in other parts of the Salvation Army field, their appointments being unknown at present.

During their term in Coleman they have worked hard in the interests of the Army, and their friends and fellow workers wish them success in whatever field they may be appointed to.

Crows Nest Pass Boy Scouts Association

No. 1 Troop will go to camp at Lee Lake from July 8 to 15. Visitors to the camp will be welcomed on Sunday, July 10 from 2 p.m. to 7 p.m. and on Wednesday July 13 from 2 p.m. to 6 p.m. Parents and visitors are requested to confine themselves to those dates and hours and so uphold the discipline of the camp. It is hoped to hold a short service for the boys on Sunday, July 10 at 8 p.m.

Scouts in Nos. 1 and 2 Troops should notify T. Brennan or Scoutmaster G. Brown as soon as possible if they intend taking part in the parade on Friday, July 1. Arrangements are being made with a view to see if Troop No. 2 can go to camp after Troop No. 1 returns.

WANTED

Board and room wanted in private home in desirable location by young man. Notify The Journal.

Thanksgiving Service in Park 2.30 Sunday

Coleman People Will Unite in National Thanksgiving in Commemoration of Diamond Jubilee

Arrangements have been completed for the national thanksgiving service to be held on Sunday, July 3. The service will be held in the park on Sunday afternoon at 2.30 o'clock and the form of service prescribed by the National committee will be used. Music by three pieces will be provided, piano violin and cornet, by J. Emmerson, S. White and J. Pearson.

Mayor W. J. Burns will read the announcement and Rev. A. D. Currie of St. Alban's church will preside over the first part of the program. Captain Watt of the Salvation Army will take the second part and the last two parts will be taken by Rev. H. J. Bevan. The form of service will be printed and the leaflets distributed to the people, that all may take a full part.

Alberta Gets Saskatchewan Newspaperman

H. T. Halliwell, Weyburn, Will Be Editor and Publisher of The Coleman Journal

Saskatchewan loses one of its best-known newspapermen in the person of H. T. Halliwell, editor and publisher of the Weyburn Review, who is leaving with his family Sunday evening for Coleman, Alta., where he will edit and publish The Coleman Journal. Mr. Halliwell has been several years in the newspaper business in Saskatchewan, and has been prominent in the activities of the Canadian Weekly Newspapers' Association. Saskatchewan division. In 1922-23 he was vice president of the association and for two years was also secretary. He formerly published a newspaper at Estevan, and two years ago came to Weyburn where he purchased the Weyburn Review. Mr. Halliwell has sold out his interests in the Review, and in leaving here takes with him the best wishes of a large number of friends.

Prior to their departure from Weyburn, Mr. and Mrs. Halliwell have been guests of honor at a number of social functions and have received many expressions of goodwill and gifts from their admirers. Among the gifts was a silver tea service from the Canadian Legion branch, of which Mr. Halliwell has been secretary for some time.—Regina Leader.

The above news item appeared in the Regina Leader under date of Saturday, June 25th, and The Journal is reproducing it as it will serve to introduce Mr. H. T. Halliwell, who takes over this paper with the next issue, to our readers and the citizens of Coleman in general.—E. F. Gare.

In accordance with the official program for the Confederation Jubilee, a short service will be held on Friday morning in the United Church, lasting for thirty minutes. The congregation is asked to make an effort to be present. The service is from 9 to 9.30.

Mr. and Mrs. Malcolm Morrison and children of Drumheller, arrived in Coleman on Tuesday by motor. They will spend a couple of weeks here with Mrs. Morrison's parents, Mr. and Mrs. R. Easton, 2nd st.

Change in Ownership.

A business transaction of interest to our readers took place this week, when Mr. H. T. Halliwell, of Weyburn, Sask., purchased the plant and business of The Coleman Journal and the residence of E. F. Gare, and Mr. Halliwell will take over control on Friday, July 1st.

As this issue of The Journal is the last the present proprietor will edit, we desire to express our sincere thanks to our many loyal friends in Coleman and district for the support given us during the past five years. Our business associations with the great majority of our fellow townspeople, during this period, have been of a most cordial nature, and it is only natural that during this term many close personal friends have made. The severance of these ties is our only regret in leaving Coleman for other fields of labor, and we wish every resident of Coleman all possible happiness and prosperity in the years to come.

Mr. H. T. Halliwell, the new editor and proprietor, is a newspaperman of long experience and high qualifications, he having spent many years in newspaper work in Saskatchewan, and during this time has been connected with several of the foremost weeklies in our sister province. Mr. Halliwell has a natural bent for newspaper work and has been active in promoting advertising on the weekly papers with which he has been connected. Journal clients are also assured that the commercial printing department will be well looked after, and that the new proprietor will endeavor to give prompt and efficient service to customers of The Journal. Given a few weeks to get properly in the saddle, Mr. Halliwell will more than prove his all round ability in the newspaper field, and we are confident he will be a decided asset to Coleman and a welcome addition to the ranks of the Fourth Estate in Alberta.

To Raise Funds For Soldier Memorial

The Canadian Legion are putting on a House-Hourie game on the 1st and 2nd of July on the sports grounds the purpose of which is to raise funds towards the much talked of Memorial.

The dead, who sacrificed their lives in the Great Conflict, certainly should have some recognition, and it is only by the support that the public will give the Canadian Legion on the 1st and 2nd of July, that the memory of those who gave their lives will be remembered. Boost the Memorial.

Women Do The Buying.

The best way to interest the public in your business is by advertising. Shopping and buying for the home is done by women. They make 90 per cent. of the purchases in the stores, and the best way in which to bring your goods to their attention is by advertising in The Journal.

Post Office Hours

The post office wicket for the delivery of mail will be open for one hour only on Friday and Saturday, July 1st and 2nd, from 9.30 to 10.30 a.m. The money order wicket will remain closed both days.

Mr. and Mrs. John Hadfield are leaving Coleman next week to make their home at Thorburn, N.S. They have been residents of Coleman for many years and during this time have made many close friends here who will be sorry to hear of their intended departure.

Mine Inspector Moses Johnson, H. Wilton Clark, and J. C. Cox were visitors to Corbin on Sunday last.

Crow's Nest Pass C.G.I.T. Camp at Beaver Creek

The camp for the girls of the Pass will be held from July 4 to 11. Registrations now number about forty and more are expected. These are from Blairmore, Hillcrest, Cowley and Coleman. Will any other girls intending to attend register at once. The camp is not restricted to C.G.I.T. members. It is important that the girls do not take more than is suggested in their list, in order to save space in the cars. Cars and drivers to make the trip to the camp site at Beaver Creek will be required on Monday morning. Mrs. Bevan is camp secretary and will be glad to know of anyone who will give this sort of service. Each town will look after its own girls in this respect.

Confederation Stamps

Confederation Jubilee stamps issued by the postal department, Ottawa, went on sale in Coleman on Wednesday, and range from 1c to 12c. They bear the pictures of Sir John A. Macdonald, Sir Wilfrid Laurier, the Federal Houses of Parliament, and the picture of the Fathers of Confederation.

NOTICE

Notice is hereby given that E. F. Gare has sold the business known as "The Coleman Journal" to H. T. Halliwell. All accounts to June 30th are payable to E. F. Gare, and all persons having claims against the Coleman Journal or E. F. Gare, up to June 30th, are required to submit the same to E. F. Gare, Coleman.

Dated at Coleman the 29th day of June, A. D., 1927.
E. F. GARE.

"Shoulder Arms" Big Attraction for Week-End

Famous Chaplin Picture Will Be a Screen at the Grand and Palace Theatres

"Shoulder Arms" was produced following the war as a comedy attraction, and proved one of the greatest successes of the screen. The film provokes one continual roar of laughter from the commencement to the finish, and is an extraordinary comedy, which everybody in Coleman should see.

The other feature picture showing at the local theatres is "Tillie the Toiler," starring Marion Davies.

Unless the weather is inclement, there will be no show on Friday evening owing to the Dominion Day celebration, but the usual shows will be held on Saturday evening. Be sure and attend. You'll laugh so heartily that your ribs will ache all the next week.

A matinee for children, Charlie Chaplin in "Shoulder Arms," will be held on Saturday afternoon, July 2nd, at 2.30 o'clock.

United Church Notes

The service for the Sunday School to commemorate the Diamond Jubilee of Confederation was a real success. The school with the regular congregation crowded the church. The special order of service used was very appropriate. The ideals of Peace, Brotherhood and Loyalty were brought forward in the prayers, scripture readings and extra items which were taken in union. The whole service was befitting the great occasion. For the balance of the holiday season the Sunday School will meet at ten o'clock.

The general plan for the Jubilee Services will be followed for July first and third. There will be a brief service on Friday morning at nine o'clock. This service will close promptly at nine thirty and will allow those interested to follow the big sports program from the beginning. It is hoped that the congregation will make an effort to attend this service.

For Sunday morning the specially compiled service will be used. This service consists of specially chosen hymns, brief litanies and thanksgivings, with appropriate scripture readings. The occasion should commend the service.

It Pays to Advertise

The codfish lays a million eggs. And the helpful hen lay one. But the codfish doesn't cackle. To tell us what she's done; And so we scorn the codfish coy. And the helpful hen we prize, Which indicates to you and me It pays to advertise.

Mrs. W. Milley, Mrs. A. Beveridge and children, left on Sunday to spend a vacation at the Coast.

Service will be held at 9 a.m. in St. Alban's Church on Friday, Holy Communion, and at 11 a.m. on Sunday, July 3rd, Holy Communion.

Mrs. G. A. Brown, Mrs. A. D. Currie, and Miss May Moores, are leaving on Sunday night's passenger to attend the Anglican summer school at Banff.

Mrs. P. Smith and children, 6th street, returned Wednesday morning from a vacation spent with relatives at prairie points.

Final Touches For Dominion Day Program

Grand Finale on First Day's Program will be Brilliant Pyrotechnic Display at 10 o'clock

Final arrangements have been completed for Coleman's big jubilee celebration and carpenters and others are busy completing the various structures necessary on the sports grounds. The children's parade from the school grounds at 9.30 on Friday morning will usher in the biggest day of children's sports ever held in Coleman and the day will be concluded with a fireworks display starting at 10 p.m. The arrangements for the latter are in the hands of Councillor James Moore and Chief of Police Houghton, and will take place on Whiteside's hill.

The display will consist of bombshell salutes, red and green fire in quantities, roman candles, shower rockets, cascades and geyers, all dear to the hearts of childhood and likewise to the more elderly children known as adults. A number of beautiful set pieces are included in the program. Those in charge wish it particularly to be understood that under no circumstances will children of any age be allowed in the vicinity of the display.

Holy Ghost Church Notes

Thanksgiving Mass and Special Services at 10.30 a.m. on Sunday next, July 3rd, in Holy Ghost Church, Coleman. Special sermon on Patriotism.

Rev. J. T. Kidd, D. D., Bishop of Calgary, has addressed a letter to all the clergy of the diocese, requesting them to hold special thanksgiving services on the occasion of the Diamond Jubilee of Confederation "for the blessings we have enjoyed during the past sixty years, and to this should be added a prayer that Our Heavenly Father may ever grant us peace, happiness and prosperity." He also requested that appropriate sermons be preached on Citizenship, the love we owe to our country, etc.

On Friday last at 7.30 p.m. Rt. Rev. J. T. Kidd, Bishop of Calgary, administered the Sacrament of Confirmation to twenty-four candidates. He also delivered a very stirring address to a crowded church on the duties of Christianity. Father Cosman motored him to Cowley on Saturday morning, when he was met by Rev. Father Salain, and committee, to confer with him re their proposed new church.

Father Cosman leaves on Sunday morning, immediately after Mass, for the annual retreat, and will be absent until the following Saturday evening, and therefore cannot be present for the thanksgiving services in the afternoon.

Mrs. T. Flynn, Miss Joanna and Master Tommy left on Wednesday's train for Victoria, where they will spend a couple of months. During her visit Mrs. Flynn will attend the wedding of her sister, Miss Bernice Kinsey, which takes place at the family residence in Victoria early in July.

Dr. and Mrs. R. P. Borden and family left on Monday by auto to spend a two months' vacation at the Coast.

WORLD HAPPENINGS
BRIEFLY TOLD

The will of Sir Wm. Mackenzie, former president of the Canadian Northern Railway, Toronto, who died on December 5, 1923, has been probated in London. Sir William left an English estate valued at £17,000.

Dr. Julio Bravo, special medical health officer of Madrid, Spain, after nine months' study of disease prevention and control methods in American cities, is visiting Canada to pursue similar investigations.

A man born in England and a resident for fifty years of the United States, has contributed \$1750 worth of bonds toward reduction of the British debt to the United States. This is his fourth donation.

The Soviet Military and Naval Court at Kronstadt, condemned to death Commander Klopoff, an officer in the Baltic fleet, who was accused of espionage in behalf of Great Britain.

Colonel Charles Lindbergh has been invited by the Canadian National Exhibition to visit Canada as the guest of the exhibition, which officials state they expect will be opened by the Prince of Wales on August 27 next.

Many of the red cedar timber poles that now stand as sentinels of the past at half-deserted Indian villages along the British Columbia coast are more than four centuries old, in the opinion of the Canadian Timber Company.

Following on the visit of the British government director of airship development, accompanied by air ministry experts, the Union Government has decided to authorize the immediate placing of contracts for erection in South Africa of a mooring tower for airships.

The burden of responsibility for accidents occurring at unprotected railway crossings rests with the motorists, according to the tenor of three judgments rendered by Mr. Justice Denvers, of the Superior Court, Montreal, who dismissed three actions instituted against the Canadian Pacific Railway by relatives of three victims of an accident at Maskinonge.

Recommend Liver Diet

Believed to Have Beneficial Effect in Case of Anemia

Liver diet as a treatment for anemia was discussed by the Canadian and Ontario Medical Association in convention at Toronto.

Dr. F. J. Campbell, of London, Ontario, read a paper which consisted of the feeding of liver, whether from beef, calves, sheep, or pigs, has been proved very successful in combating pernicious anemia. He pointed out that as the duration of the case is from five to ten years, it was too early to say that liver feeding was a cure. Results, however, after one year's experiment, were very promising.

The Britisher Scored

A Londoner was showing an American student round, but without exciting much enthusiasm.

"What do you think of that?" when facing a fine site.

"Well," was the reply, "it's not a bad sized building, but there's only one. I could show hundreds like that in New York."

"I won't argue on that point," said the Englishman. "That's a lunatic asylum."

Visitor (to attendant at British Museum)—"I have been looking around for a skull of Oliver Cromwell. Have you no skull of Cromwell here?"

"No, madam," the attendant answered.

"How very odd," exclaimed the woman. "They have a fine one in the Museum at Oxford."

W. N. U. 1657

Would Reduce Railway Crossing Fatalities

Danger Could Be Eliminated If Drivers Watched Signs Carefully

The papers are already filled with automobile accidents, many of which occurred at level crossings. As a rule, drivers do not look ahead before they reach a crossing to see if a train is coming, or if they do, they think they can cross before the train. This thoughtlessness is responsible for most accidents at level crossings as newspaper reports show. Others realized the danger too late. They got confused and often stop their cars right on the track.

Cautious and experienced drivers were very easily avoided being run down by locomotives. They have only to remember that railway crossings are clearly pointed out on all highways.

The Roads Department sees that level crossing signs are placed on both sides of the highway at 200 feet from the crossing. Any driver careless to look at the signs always knows when he is about to reach a level crossing. The signs are far enough to give him ample time to ascertain whether the track is clear, and if not, to stop in time.

CANADA'S BISLEY TEAM

Members of the 1927 Canadian Bisley team who sailed for England on June 10th, on the Cunard liner Ausonia. Seated near: Brig-Gen. G. Duff Stuart, commandant of the team, of Vancouver, on the left, and his adjutant, Major J. P. McManus, of Belleville, Ontario, standing in the first row from left to right are: Sgt. W. H. Wood, P.C.C.L., Sgt. B. W. Beaumont, of Victoria; Pte. Potter,

How to Avoid Cancer

That celebrated British cancer and cancer authority, Dr. Robert Bell, M.D., F.R.C.S., &c., voluntarily sacrificed his highly lucrative surgical practice when, after twenty years of exhaustive research and practical experience, he boldly published the following statement of vital import to the cancer-stricken civilized world: "Cancer is a blood disease and its breeding ground is the colon. Neither X-ray nor radium has ever cured or will ever prove of service as a cure for cancer. From my knowledge of the disease I affirm that the knife has never cured cancer in a single instance; but, on the contrary, has only succeeded in aggravating the disease and adding to the sufferings of the poor patient."

Countless thankful patients living today mourn the passing in 1926 of the author of the above quoted words and if Dr. Robert Bell's profoundly considered warning is heeded, it is possible for the public to render the devastating Cancer scourge almost a matter of history.

Civilization's diet is responsible for provided organic salts essential to health preservation and the substitution of what have been truly described as "fodder foods" which create a superabundance of acids in the human body, resulting in the now practically universal complaint of constipation that is the inevitable forerunner of Cancer and also of almost per centum of all civilization's physical maladies.

The active irritants contained in pills, purgatives and laxatives, combined with their only partial relief, caused Dr. Robert Bell to soundly condemn their use as being injurious and dangerous. The method of curing constipation without drugs is disclosed in the last book presented to the writer by Dr. Bell, whose advice is quoted in the writer's copyright dietary which is mailed without charge to every Canadian and American purchaser of the English home Cancer Treatment. Detailed information concerning this treatment is also freely mailed on application to Charles Walker at 51 Brimley Avenue, Toronto, 4, Ontario, Canada.

Mennonites for Peace River

Representatives of the Mennonite colony in Manitoba recently left for Peace River to investigate the desirability of homesteading in that district. If present plans are put into effect about 25,000 of these people are expected to move into the Peace River country.

Burke, Ottawa.

Heroism Poorly Rewarded

Man Who Sacrificed Health in Interest of Science Is Penniless

Inadequate reward is the rule all too often, for those who make great personal sacrifices in the interest of science or humanity. Recent news dispatches illustrate the truth of the foregoing. According to the press, it has been necessary for the American Association for the Advancement of Science and the American Association for Medical Progress to "pass the hat" on behalf of John H. Kinsinger.

Kinsinger, formerly a private in the United States Army, subjected himself to infection by the yellow fever mosquito in Cuba in 1906, and since that time he has been an invalid, twenty years in a wheel-chair suffering from spinal trouble. His wife has been obliged to take him washing, to keep his bed, do sewing, and other menial tasks to avoid actual poverty. Largely through Kinsinger's sacrifice, the terrible scourge of the tropics has been overcome so that, during last year, only two cases of yellow fever were reported in all North and South America.

Kinsinger's voluntary act took place at the post hospital, Columbia barracks, Guantanamo, Cuba, in 1909. He had heard the officer in command of the hospital corps say that the experimentation could be made only on human beings, and that it was going to be difficult to find anyone willing to undergo the great risk. Kinsinger thought the matter over and offered himself.

In return for this, he was granted in 1911 a manumission. But this is so meagre that it is utterly inadequate to provide for medical attention for himself. Nothing is left for support of his family.

What a difference there is between such a reward and that usually accorded the successful performer in the prize ring, on the baseball field, in football. Of course, many in the first mentioned vocation have been accorded "benefit performances," but only after they had squandered their easily won funds.

One cannot but wonder if now services have not fallen into a distorted sense of the value of sport heroes as compared with the genuine variety.

The party of Americans was being conducted over a famous building in London.

"That particular arch," explained the guide, proudly, "goes back to William the Conqueror, gentlemen."

"What for?" asked a member of the party. "It looks fine to me. Won't it fit?"

SUNDAY SCHOOL LESSON
JULY 3

SAUL CHOSEN KING

Golden Text: "What doth Jehovah require of thee, but to do justly, and to love kindness, and to walk humbly with thy God?—Micah 6:8."

Lesson: 1 Samuel, Chapters 9-11.
Devotional Reading: Psalm 119:1-18

Explanations and Comments

1 Samuel's Remind of God's Goodness, 10:1-13.—The prophet Samuel called the people together at Mizpah and reminded them that God had delivered them as a people in former days from the oppression of the Egyptians and of other kingdoms; and now they were receding and in deriding a king.

"Forget not all the sunshine of the day."

By which the Lord hath led thee.—F. R. Havergal.

"Now there present yourselves before Jehovah by your tribes, and by your thousands," was the conclusion of Samuel's speech. "A wise man has said that to make the best of things in the right way is to let things make the best of us. This is what Samuel did. He made the best of this crisis in national affairs in the right way by doing all he could to carry out what might be, although he did not like it, and thereby he brought about the best thing in him—namely, generosity, generosity, greatness of spirit that rises above all that is envious and envious and selfish."

It is one thing to submit to the inevitable because we must; it is quite another to submit to the inevitable and let the inevitable make the best of us.

1 Samuel's Selection of a King, 10:24.—Samuel conducted the selection of a king by lot as if in the very presence of the people. The lot was cast by the several tribes of Canaan was settled by lot (Num. 32:34); the treasure of Israel was discovered by lot (Josh. 18:10).

First, the tribe of Benjamin was chosen by lot (Judg. 1:1); the location of the several tribes of Canaan was settled by lot (Num. 32:34); the treasure of Israel was discovered by lot (Josh. 18:10).

First, the tribe of Benjamin was chosen by lot (Judg. 1:1); the location of the several tribes of Canaan was settled by lot (Num. 32:34); the treasure of Israel was discovered by lot (Josh. 18:10).

Constructing Large Elevator

New Building at Port Arthur for U.G.C. of Canada

Work has begun on the construction of a 5,500,000 bushel elevator for the United Grain Growers of Canada at a cost of \$2,000,000, and is to be completed by February, 1928. This elevator will be the largest single working elevator, constructed in one unit, in the world. The building will measure 90 feet by 1,000 feet. It will be an all-concrete structure with 500 concrete tower stacks. Adjoining it will be a dock 1,000 feet long.

An Ancient Custom

Observed a method employed by the ancient Athenians of banishing citizens whose influence was considered prejudicial to the state. A day for violence was fixed when the people were on small circular tablets or shells the names of those whom they wished banished. Six thousand votes were necessary to drive a man into exile. To ostracize today means to ignore, to exclude from a certain social circle.

Hand labor has been discarded for machinery in producing the world's demand for five billion matches daily.

China's Population
Decreasing

Due to Abnormally High Death Rate Says Statistician

China, with its swarming millions of people, its crowded streets and villages, has a very low rate of population increase in recent years, largely because of the great proportion of death. This fact is shown by a new study of Chinese censuses since 1741, made by a Chinese Government statistician named Chong Chen.

In 1741 the Chinese people numbered only about 25,000,000 more than the United States population of today, and in the 7½ years following 1741, the population more than doubled, advancing at the rate of 15 to the 1,000 people every year. In the next half-century the population increase slowed down to less than five additions a year to each 1,000 people. From 1849 down to 1922 the rate of addition has gone down to only 81 a thousand. This, Mr. Chang says, is lower than the rate of population advance in any other country except France.

"The rate of increase of millions of the white race since 1800 has been 11 a 1,000," he says. "This means that the rate of increase of the Chinese population in modern times has been not quite one-third as fast as that of other countries."

The Chinese population reached the 400,000,000 mark back in 1925, according to the census figures. Since that time it has advanced only to 525,375,000, and the statistician believes that this extraordinarily slow rate of advance is due to high death rates rather than to low birth rates. China does not need any large increase of population, he predicts, but adds, but high death rates are not healthy factors.

Wanted Stained Glass Windows

Natives of India Raised Money to Beautify Church

In the centre of a Christian settlement in the jungle at Medak, Hyderabad, India, stands a Christian church.

This is the central place of worship for the great community of Indian Christians, numbering over 50,000, who have gathered around the Rev. C. V. Purnani, a Wesleyan missionary, as a result of his thirty years' work in this native state. The church was opened a year ago, but there seemed something lacking in its beautiful interior, despite the marbles and many tinted tiles. There was no stained glass in the windows. Six thousand Indian Christians, most of them former outcasts, have given the money for a window, designed by Frank O. Salisbury, a well-known British artist. The subject is the Ascension, and Mr. Salisbury says of the window: "The desire of the donors was that their Church should be as beautiful as any Mohammedan mosque or Hindu temple, and I trust that my work will help them to realize their ideal of beauty as an aid to worship."

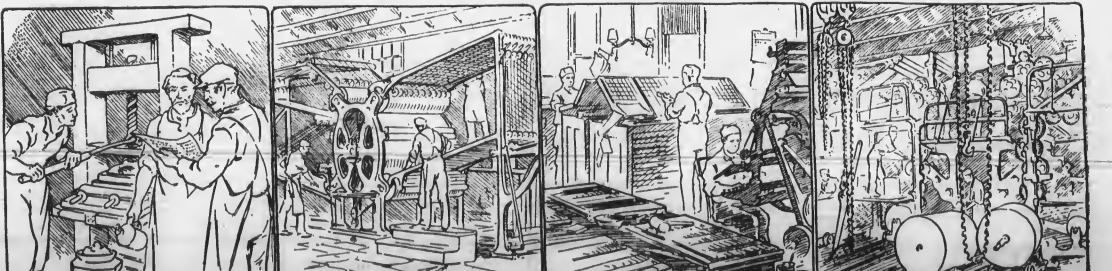

Canadians Coming Back

Trend of Travel to U.S. Has Been Reversed This Year

No less than 75 moving vans conveying the household effects of returning Canadians have entered at the Port of Rock Island during the present season, according to a customs' official who stated that there had been return of the trend of travel from last year. In recent years, he said, the early summer months would see from 50 to 60 of such vans moving south, but this year the movement is northward. Figures showed that many of the returning Canadians are going back to the farms which they left.

Be very careful what you say to your enemies and more careful what you write to your friends.

Few men are able to retain their self-control after they are married.

OLD STYLE HAND PRESS

NEWSPAPER PRESS OF 60 YEARS AGO

SETTING TYPE, OLD AND NEW METHODS

MODERN NEWSPAPER PRESS

Official Road Map of Province Issued By Motor Association

Old time methods of gathering road information collapse when called upon to serve the insatiable demands of today's gasoline transportation. With a motor car a couple of hours travel takes one far afield where haunts are unfamiliar and where roads develop an inclination to branch off in strange directions.

Here is where the modern road map comes to the rescue. With a little folder or booklet in the car giving the location of all important routes of travel the motorist is enabled to sail blithely along with reasonable assurance that he will land at the right place without the annoyance of questioning all and sundry along the way as to his whereabouts.

The Alberta Motor Association have issued an excellent road map of Alberta this season which not only gives the location of every post office, section line and main, market and district highway, but gives information as to auto camps, condition of the roads and a comprehensive survey of the scenic, industrial and agricultural development of the province in concise form. The map is proving of real value to motorists at home and abroad and is meeting with a constantly growing demand. The chief distribution centers at the present time are the Calgary and Edmonton offices of the Alberta Motor Association.

Via Canadian Pacific Railway recently there was forwarded to His Holiness the Pope an album of photographs of the Canadian Rockies offered by E. W. Beatty, Chairman and President of the system, following the suggestion made by a prominent Canadian citizen who had described the Canadian Rockies to His Holiness in an interview some time ago. A wish for a book showing views of the mountains was expressed by the Pope whose wish was conveyed to Mr. Beatty. The album is beautifully bound in white kid.

Here and There

Platinum produced in Canada in 1926 totalled 9,521 fine ounces, or an increase of 1,000 over the year before, according to the Dominion Bureau of Statistics.

Dr. H. M. Tory, Chairman of the National Research Council, announces a discovery "of great scientific importance" in rust prevention, emanating from the Dominion Rust Laboratory. A more definite announcement is due shortly.

Canadian tobacco has been awarded a silver medal for "outstanding excellence" at the International Tobacco Exhibition held at Olympia, London, England, according to word received by the Department of Agriculture.

Fifteen Austrian families are about to take up land in the Okanagan Valley, near Kelowna being the first group to take up land in British Columbia under the Canada Colonization Association, a subsidiary of the Canadian Pacific Colonization Department.

Canada leads all nations in increased trade since 1913 according to statistics compiled by the National Foreign Trade Council of New York. Canada's increase was 85 per cent. Australia coming next with 45 per cent and the United States third with 31 per cent.

The Provincial Game Commissioner of Alberta announces bounties to be paid on wolves killed—\$20 for the pelts of female timber wolves, \$10 for that of males, and \$2 for adult and pup prairie wolves taken before September 1st and July 1st, respectively.

Another collection of native Canadian animals has gone forward across the waters through the Canadian Pacific Express Company. It included two bear cubs, two porcupine, two coyotes, prairie dogs and a collection of Canada geese, destined for the zoo at Pretoria, South Africa.

One feature of the celebration of the 50th anniversary of Confederation at Vancouver, July 1-4, will be the official opening of the 1,100-foot new Canadian Pacific Railway pier "B-C" on the latter date. This is the second largest pier on the American continent and is said to be the only pier in the world built in such deep water.

Canada's so-called "Barren Lands in the Far North" have been under examination for the past two years by the Forsell brothers, graduates of the University of Copenhagen, in the employ of the Dominion Government, for the purpose of ascertaining the value of this vast territory for accommodating reindeer.

Display advertising rates on application at the office.

THURSDAY, JUNE 30, 1927

PROVINCE OF A NEWSPAPER.

It would be comical, were it not somewhat pathetic, the way newspaper offices are besieged every day by their friends, urging them to "roast" this and that; to "see to it" that this and that is corrected; to have this or that done in the city or country; to start this and that kind of movement to correct evils in municipal, provincial and Dominion government. These friends actually appear to believe that it is the newspapers' business to handle these affairs.

But a self-respecting newspaper though ready and willing to carry all reasonable responsibility, must remind its readers that they—the people—are the authority upon whom rests the responsibility for the present state of affairs, local, state and national. A self-respecting newspaper tries to report the news of what actually happens, not what it might wish had happened. The relation of a self-respecting newspaper to the general public is not always understood. It is the duty of a newspaper to be in a position to support any good act, and criticize any bad act of public policy. This relationship cannot exist where favors are asked and granted. Honesty is the only policy for a newspaper. If officers don't like the way things are going, they should qualify as voters and then raise Cain about it.

TREAT THEM RIGHT.

No matter what might be said about the foolishness or wisdom of the present immigration policy of the Dominion Government and Canadian Colonization Board, certainly all sane people must recognize that no blame can be attached to the immigrant. These newcomers to Canada have come here in good faith, and now they are here, and we are treating them fairly, and are they receiving at our hands the same consideration we should like to receive ourselves under similar circumstances?

Too often have these immigrants been imposed upon and mistreated, if the stories afloat are any criterion by which we may judge the matter. It is true, "someone has blundered," and these men often are wholly unprepared to do farm labor, and as laborers on the farm they may not "be worth their salt," yet at the same time, they are human beings, and many have left comfortable homes, wives, and children, to come out here to the Golden West, the land of their dreams and of opportunity. Furthermore, many of them given an opportunity, will make good and sooner or later send for their loved ones, and make their home among us, a credit to themselves and to the community in which they settle, and an asset to the country.

It is our plain duty to look to the possibilities of these new comers—these immigrants from other lands. Among them are undoubtedly many good people, and future citizens, if they are given a chance. We should endeavor to teach them intelligently, that they may become satisfied with their new life. We could point out to them the possibilities of our district, the opportunities we see for them here, and give them the same opportunity to make good that we have had. This is a big country. It needs settlers—it needs population. Make friends with our new-

comers, get them to see this new land with a friendly eye. The results may surprise us all.

EDITORIAL NOTES

Decorate your homes and places of business on Dominion Day.

After paying the expense of buying stuff elsewhere, people commonly find they could have bought the same thing in their home stores for the same or less money without any expense.

Many of us teach our children personal cleanliness, and then fail to exemplify it ourselves by keeping our home place in order.

Success in business is obtained by persuading people that you have good goods at right prices. How are they to know that fact if you don't advertise?

Weather forecasters are predicting a summer of violent storms, frost and cold. But the people of Alberta have been fooled before by weather prognostications so they are not worrying much about 1927.

A Toronto man was bitten by a large insect of grey color, and with red stripes on the body. And the new liquor law has been in operation a few weeks.

Children should be seen and not heard, the old proverb says; but if we adopt that principle when they grow up and go into business, and fail to advertise, they may not be either seen or heard very long.

No horse ever pulled the load by kicking, and no city was ever hoisted by that process. Lay aside your hammer and join the anvil chorus on Dominion Day.

Here and There

More Clydesdales are on the way to Canada from Scotland. It is expected that the year's imports will run to 120, a record since the war.

Where Wolves Will Run With Huskie Dogs

An entirely new and unique tent will soon be made at the Chateau Frontenac, Quebec, by Arthur Beauvais, driver of the Frontenac dog team. He has three wolves which he has reared from infancy. These have been kept in a kennel in the same building with his huskies. They are shy little things and appear as aliens among the dogs. They are not as playful as pups, and to overcome their shyness Beauvais often puts three little huskie pups in for playmates when they forget themselves and seem less homesick for their parents and the great outdoors. These little creatures are now only eight months old, yet in this short time have learned much of morals, and they have already had one trip to Boston where they were exhibited by the Canadian Pacific Railway at the Sportman's Show.

One morning a brand new sporty looking collar was placed on one, and the dignity this wild animal suddenly acquired was amazing. It was like a child with new shoes. It turns its little head first one side, then the other and sat down in a sedate manner, all four feet together and held its head high haughtily and said with its eyes "now look at me!" Do wild animals understand? Yes, indeed, that wild beast was as self-conscious as any human decked out in a new regalia. Shortly after the return of the wolves from Boston, one of the little

creatures sprained its shoulder. When Beauvais entered the building and went up to the kennel, or compartment allotted them, which was wire netting around, the poor little thing came up to him for sympathy. It was duly rubbed with lotions and cared for, not in the least resenting anything which was done for it. A cute little sleigh, French-Canadian in design, has been built for it and the picture shows little Master Beauvais all ready for his first ride as soon as the wolf is harnessed. It is now three months since this wild animal has been tame enough for this little child to play with, and one wonders if the old saying "A little child shall lead them" can be applied in this instance. It can, however be stated that when this picture was taken the wolf had to be literally pulled out of the street back to its kennel. It was interested in the people around, the dogs, the taxis and sleighs which passed as he posed for one of his many pictures taken lately.

It will indeed be worth while to follow the adventures of a wild creature from the woods of Quebec province, into the biggest organization of its kind in the world, a frequenter of the Chateau Frontenac, one who has already taken trips, and who will in time know the hearts and kindness of people it will come in contact with.

Golfing Around the World

1. Members of the Round-the-World Golf Club aboard the Empress of Scotland on her globe-encircling cruise. 2. A golf course in India. 3. Commander Jack Latta of the Empress of Scotland, an enthusiastic member of the Round-the-World Club.

Some people are unable to understand the fascination of that Royal and Ancient that they refer to as "chasing a little ball round and round a field"; but it must be admitted that there must be a good reason when players actually start chasing the little ball all around the world.

And that is what twenty members of the Canadian Pacific Round-the-World Cruise are going to do this winter. Of course they don't say that the only reason why they are going around the world is in order that they may play on 26 different golf courses in as many world ports; but if the truth were known the Sphinx and the

Tal Mahal hold not the lure for them that do the golf courses of China and India and Egypt.

Commander Jack Latta of the Canadian Pacific Cruise ship Empress of Scotland, now on her way round the world, is one of the most enthusiastic of the Round-the-World Golf Club, and it is he who tees off from the deck of his ship and splits the fairway far into the ocean with the first ball of the tournament.

The above picture shows a few of the members of the club taken on board, and a few golf clubs that won't be allowed to grow rusty with disuse this winter.

NO DISORDERS IN FREE STATE OVER ELECTIONS

Dublin.—Critical hours in the life of the Irish Free State were passed as the newly elected Dail Eireann convened under threats of possible trouble from Eamon de Valera and his Republican followers. But the peace of the capital remained unbroken and William T. Cosgrave, re-elected President of the executive council by a vote of 68 to 22, again is head of the Government.

Not since Sir John Bull has there been such political excitement in Dublin and much of it centered around de Valera as it did in those tragic hours. Early in the morning he was in an automobile smash-up but escaped injury and then led his 41 Plannas Fall deputies through the streets to Leinster House where they demanded their seats as duly elected members if the Dail. But they refused to take the oath of allegiance to the King and they were barred from the chamber.

The formalities of opening the Dail and the re-election of President Cosgrave were carried out while de Valera and his followers paced restlessly in the corridor outside the locked and guarded doors of the Dail chamber. At length the de Valerites retired to the Plannas Fall headquarters, where their leader declared the demonstration at the Dail was only the first step in a campaign for the removal of the oath of allegiance to the British Sovereign.

The Republicans, declared Mr. de Valera, would go back to the people and tell them what had happened and with the pressure of the people behind them the barriers would go and the people's representatives would meet shortly without oath of allegiance to a "foreign king."

As soon as Mr. Cosgrave's re-election was moved in the Dail chamber he announced he would accept responsibility of Government only upon his own terms. He made a vigorous attack on the anti-oath agitation and declared the Plannas Fall deputies had not been kept out of the Dail by reason of the oath, but were sheltering behind it on subterfuge, knowing their fantastic promises could not be fulfilled.

Claim Based On Equity

Commission is Investigating Return of Lands Claimed by B.C.

Victoria, B.C.—That the claims of British Columbia for the return of lands ceded to the Dominion at the time the far western province entered the Confederation are based "on the grounds of equity in its broadest sense" was the contention of C. W. Craig, K.C., before the commission appointed to investigate the matter which has held its first hearing here.

Mr. Craig explained that he did not mean by equity that the term should be applied in the strict legal sense.

"Your Lordship is justified in looking at the matter from the standpoint of natural equity," he continued in addressing Mr. Justice W. M. Martin, Regina, who is the sole commissioner hearing the application.

Extending Alberta Pool

Calgary.—By harvesting time the Alberta Wheat Pool will have 142 elevators in operation. It started in the elevator business last year with 42 interior and the Prince Rupert terminal elevator. It has bought a site for a big terminal elevator at Vancouver, and will build 100 in Alberta this season to supplement the 42 acquired last year.

Paris—Mother Remembered

Filer's Mother Remembered.—The missing French transatlantic aviator, Captain Charles Nungesser, was the centre of a touching ceremony at a Paris hotel when a basket of flowers was presented to her in behalf of the National War Mothers of America, by Mrs. Charles Augustine Robinson of New York.

Beak New Homesteads

Winipeg.—Representatives of the Monmouth colony of Manitoba recently left for Peace River to investigate the desirability of homesteading in that district. If present plans are put into effect, about 25,000 of these people are expected to move into the Peace River country.

Wins 480 Miles Marathon

Grants Pass, Oregon.—Mad Bull, Karok Indian runner, finished the 480 mile Redwood Highway marathon here 10 miles ahead of Flying Cloud, his nearest rival and 10 miles ahead of Melika, a Zuni, the third runner. He wins a prize of \$1,000.

W. N. U. 1487

Judges Are Criticized

Importance of Cooperation Between Police Officers and Magistrates is Stressed

Vancouver.—Criticism of supreme and county court judges who quashed important convictions on technicalities of a law without due consideration of the seriousness of the crime involved was made by Police Magistrate H. C. Shaw before the opening session of the 22nd annual convention of the Chief Constables' Association of Canada here recently.

In stressing the importance of cooperation of police officers with judges and magistrates, he declared it should be greatest with the latter, who deal with crime and not law.

Advocation of elimination of municipal and political influences in police forces was made in the report of Assistant Inspector William Wallace, Toronto, secretary-treasurer of the association.

"I know of no change in our provincial statutes so urgent as the adoption of a law that will remove police department from political and municipal influences and interferences and place them under the control of a responsible and independent police commission," he said.

The Empire Educational Conference

Delegates Are Welcomed With Cordial Speech by Prince of Wales

London.—The Prince of Wales opened the Empire educational conference in the board of education's offices with a brief, cordial speech of welcome. Later he chatted with the delegates and shook hands with each.

The official report issued at the close reports the speech of Dr. F. W. Marchant, chief director of the department of education of Ontario. Dr. Marchant declared the introduction of a more practical element into the primary course made children more interested, improved the attendance and led to the raising of the school-leaving age to 16 years. A greater flow into secondary or post-primary schools also was stressed. It was now agreed that close cooperation between the school and employer was needed to prepare pupils for trade, he pointed out.

Would Purchase Paper Mills

Race Between Canadian and U.S. Companies to Secure Plant in Newfoundland

St. John, Nfld.—A race between Canadian and United States interests to obtain a foothold in the Newfoundland pulp and paper industry developed when a large Canadian corporation notified the Government that it desired to purchase the paper mills at Corner Brook on the West Coast. The International Paper Company of New York already was negotiating for this property.

The name of the Canadian company was not divulged but it was said the terms offered were considerably better than those of the U.S. company of the government than those of the international. The great plant at Corner Brook was built by Newfoundland and British capital, the two governments guaranteeing the bodies of the enterprise. Recent developments operating the mills asked the government for permission to sell to the international at the same time asking for certain concessions for the latter corporation.

Edmonton Boy Solist

Edmonton.—Believed to be the first time that a Canadian boy has been chosen King's Chorister, Robert Henry Palmer, boy solist of Holy Trinity Church and son of Col. R. Palmer, D.S.O., former commander of the 45th overseas battalion, has accepted the position of probation chorist boy in St. George's Church, Windsor, England. The offer came through Dr. Fellows, who accompanied the Westminster choir on their Canadian tour a few months ago and heard Master Palmer sing here.

Trophy Comes West

Montreal.—Transcona won the annual system fire brigade competition organized by the Insurance department of the Canadian National Railway and the trophy will go West for the first time and repose in Winnipeg for at least one year. Second place went to the Battle Creek, Mich. team; London, Ont., came third and Montreal, N.B., fourth.

Another Distance Flight Planned

Prague, Czechoslovakia.—Two Czechoslovak airmen, Captain Franz Malkovsky, and Lieut. Ludwig Paylovec have announced their intention to fly from Prague to New York City in the Trans-Canada, the crack summer trans-continental of the C.P.R., just as it is about to lose itself behind the lofty peaks that surround the mountain resort of Banff.

Wires Assistance

Directing the treatment of a critically injured sailor 190 miles away by wireless and thereby saving the man's life has been the experience of Surgeon Taylor of the Canadian Pacific steamship Minnedosa photographed above. On May 29 a wireless was received that John Pope, a sailor of the American vessel Natian was badly injured by a fall sixty feet from the cross trees of the mast. The two ships were nearly 200 miles apart but the course of the Minnedosa was altered and they lay towards the end of the day. The injured man was transferred to the Minnedosa's hospital and aboard that ship was rushed to a Quebec hospital. The accident took place in mid Atlantic.

Western Pioneer Dead

Sherrif Peter Gunn of Edmonton Had Varied Career

Edmonton.—Sheriff Peter Gunn, of the judicial ridings of Athabasca and Peace River, who came to Alberta 41 years ago, from Scotland, to enter the employ of the Hudson's Bay Company, died June 21, at the age of 63 years. The life of this pioneer was varied one, as he acted as Hudson's Bay factor, farmer, and Dominion fishery inspector, and also represented the provincial riding of Lac Ste. Anne for eight years in the Alberta Legislature. He was appointed sheriff in 1916. In politics he was a Liberal.

STAMP TAX ON CIGARETTES WILL REMAIN IN FORCE

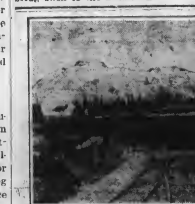

Ottawa.—The cigarette stamp tax reduction application to the tariff advisory board stands adjourned until next fall.

W. H. Moore, chairman of the board, stated that a date for the further hearing of this matter would be named as soon as possible. The applicants, the Imperial Tobacco Company Ltd., Montreal, then would likely be asked to submit whatever further evidence the board desired in support of the company's request for a reduction in the stamp tax from \$6 to \$3 per thousand.

A lengthy session was largely consumed in the evidence of witnesses in respect to the smuggling of cigarettes from the United States into Canada, estimated by David A. Patterson, president of the company to amount to 600,000,000 annually.

J. Murphy, tobacconist, Windsor, Ont., said about 12,000,000 cigarettes were brought across the line at the Border Cities each year.

A. Auger, private detective, Montreal, declared the amount of duty charged by customs officers at different points of entry in Canada varied in the same quality of cigarette. In one store in Detroit he had seen nearly 54 Canadians enter within five minutes to purchase cigarettes to bring back to the Dominion.

C.P.R.'s New Mountain Car

One of the first photographs of the new type of mountain observation car being used successfully this season by the Canadian Pacific Railway Company is the car seen attached to the year of the Trans-Canada, the crack summer trans-continental of the C.P.R., just as it is about to lose itself behind the lofty peaks that surround the mountain resort of Banff.

MORE HARMONY IS IN EVIDENCE AT GENEVA MEET

Geneva.—Conciliation is taking shape among the divergences of the powers studying naval disarmament here. The great Britain's desire to see open affairs arranged at the Washington naval conference may be partially appeased by a proposal from the United States delegation to adopt a resolution agreeing that any arrangement made at Geneva will not prejudice the agenda of the second Washington conference to be held in 1921.

There emerged from a discussion between Hugh Gibson, head of the United States delegation, and Admiral Sato of Japan, the possibility that the Japanese sensitiveness on the point of inferiority in cruiser strength might be smoothed by a proposition to make the relative strengths of the United States and Japan 5:3 rather than 5:2.

Indications are that the Americans expect no insuperable difficulties in establishing the proposition.

In the British-American matter of re-opening the affairs of the Washington conference, it is pointed out that by the very terms of the Washington treaty the nations must consent to determine whether the development of science justifies any modification of the Washington decisions as to the size of battleships, cruisers and aircraft-carriers.

This incidentally would bear on the recent trans-Atlantic flights of Lindbergh and Chamberlain, which have raised the question whether aircraft-carriers would not be increased in size and number to meet the rapidly developing speed of inter-continental air communication.

If the Japanese plan were accepted, it would give Great Britain a considerable higher percentage of war-craft than the United States, and some way must be found in juggling all three plans to establish parity, on paper at least, between the two nations, leaving the United States people to decide whether they wish to build up to the treaty-declared parity.

Suffragists Hold Dinner

Celebrate Twentieth Anniversary of First One Imprisoned in London

London.—Twenty years ago June 21 the first suffragist saw the inside of Holloway Jail. This was Miss Billington, now Mrs. Billington Greig, who had emphasized her opinions on the women of Great Britain being deprived of the right to vote by creating a disturbance outside of the residence of Sir Henry Campbell-Bannerman then premier.

Mrs. Billington-Greig, with some thirty women of the suffragist movement of that time, celebrated the twentieth anniversary of her imprisonment by a dinner.

Mrs. Emmeline Pankhurst and her daughter Christabel who were amongst the earliest sufferers of imprisonment in connection with the British women's movement for suffrage, were not represented. Nevertheless, the gathering included some interesting personalities.

Open War on Speeders

Quebec.—Reckless war against automobile speeders and summary suspension of the licenses of those caught exceeding the speed limit of the law is the ultimatum laid down by Hon. J. L. Perron, Minister of Highways for Quebec. "Auto riding has become the great summer sport," said Mr. Perron. "but unfortunately the pedestrian can hardly venture on our highways without danger to life and limb."

Have Justified Claim For Self-Government

People of Irish Free State Are Prosperous

Chicago, Ill.—Hon. Timothy A. Smiddy, Irish Free State Minister to Washington, speaking before the Norman Watt Harris Memorial Institute of the University of Chicago, declared that "the people of the Irish Free State have already amply justified their claims to be allowed to govern themselves."

Prof. Smiddy traced the progress of Southern Ireland since her recognition as a separate nation within the British Empire. A constitution had been written and the foundations for a prosperous business life had been laid. Economic prosperity had followed political freedom and "the more this freedom is an established fact the more absolute equality of the status of the Irish Free State with that of Great Britain herself and of the other Dominions manifests itself in the ordering of her own life, the greater will be the moral bonds which bind her to her associates in the British Commonwealth of nations."

"The more this absolute equality is realized in fact the greater will be our friendship for Great Britain," the speaker will be similarly of the Irish Commonwealth through contentment among the people of the Irish Free State and their kith and kin."

Will Attend Soviet School in Russia

Children of British Reds Sail for Moscow Without Passports

London.—The Daily Mail says that six children of British Communists have left London for Leningrad aboard the Soviet steamer Yonhar, notwithstanding the Home Secretary's refusal to grant them passports. Five boys and one girl, and a girl of the same age, are voyaging to Russia in response to the invitation of Moscow, apparently for purposes of education.

Moscow's invitation was announced on May 13 and after a discussion in the papers it was stated on June 12 that the Government had decided to refuse passports, thus establishing a precedent, as heretofore passports have not been refused unless the applicant had been convicted of a crime.

The next step was a declaration by A. J. Cook, secretary of the Miners' Federation of Great Britain, that a way would be found to send the children to the Government of the Soviet Union. This seems to have been done.

Filling Russia's Order For Canadian Horses

First Shipment Will Be Entirely From British Columbia

Ottawa.—The first shipment of Russian orders for 4,000 Canadian horses will leave Quebec about July 15, it was announced at the department of agriculture.

These horses numbering approximately 1,400 will all be from the province of British Columbia. The remainder part of the order will be filled by the purchase of horses in Manitoba, Saskatchewan and Alberta. The average price of the whole order of 4,000 head will be, it is estimated, around \$50 each.

BRITISH LABOR IS OPPOSED TO SOVIET SLAYINGS

London.—The fervent hope that executions in Soviet Russia such as those of the recent 20 alleged counter-revolutionists will cease was voiced in a resolution adopted at a joint meeting of the executive committee of the Labor Party and of the general council of the Trade Union Congress.

"While recognizing the Soviet Government's indignation at the murder of Mr. Voloff (Soviet minister at Warsaw)," the resolution said, "we are obliged to protest against the execution of persons innocent thereof as a reprisal."

The conference also adopted a resolution expressing "uncompromising opposition to the Government's proposal for the so-called reform of the House of Lords."

"We are of the opinion that the House of Commons should be the supreme authority in legislation and finance and that the hereditary upper chamber should be abolished," the resolution said.

PROBLEMS OF THE BRITISH EMPIRE ARE ENUMERATED

Chicago.—Describing the British Empire as a strange complex, a heterogeneous collection of separate entities which is yet a political unit, Cecil Hurst, political adviser to the British Foreign Office, began a series of lectures here before the Norman Watt Harris Memorial Foundation Institute at the University of Chicago.

Sir Cecil urged his audience to bear in mind the fact that the British Empire is wholly unprecedented, that it has no written constitution, that it is of quite recent growth and of amazing rapid development. The empire is not comparable to any empire of the past, or to any great existing nation, because in every case their strength lay in the central government while with the British nation the internal politics of each affected the whole empire. In addition to live big self-governing Dominions there were numerous less autonomous countries, the vast wasteland and Southern Rhodesia, which really controlled their own destinies. Then followed India, a huge dependency, which was on the road to the status of a fully self-governing nation whose "rapidity of progress in that direction lies in her own hands."

Next came a list of multitudinous colonies, having more or less self-government, directly under the British government.

Canada, Australia, New Zealand, and South Africa, Sir Cecil said, have been during the last century "climbing a ladder in the evolution from a position of dependence to a position of freedom and control."

The Dominions of today are the crown colonies of the past, the crown colonies of today will be the Dominions in days to come. There is nothing static about the British Empire.

Changes King's Title

Royal Proclamation Has Been Received by Ottawa

Ottawa.—Official copy of the royal proclamation recently issued from Buckingham Palace, changing the title of His Majesty the King, was received by the department of secretary of state.

The new title of His Majesty, which was approved at the Imperial Conference last fall, so as to accord with the altered state of affairs arising from the establishment of the Irish Free State as a dominion, is: "George V., by the Grace of God, of Great Britain, Ireland and the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India."

Grave Is Guarded

Calgary.—Donkohors maintain a guard both night and day over the place their late leader, Peter Verigin, was buried and have done so since he was interred in Brilliant, B.C., following his death in a dynamite Kettle Valley railway car October 29, 1924. It was disclosed in evidence given before Chief Justice W. C. Simons in the case brought by Peter Verigin's nephew, Nicholas J. Verigin, to recover damages caused by an alleged explosion from the Donkohor community.

Immigration Increasing

Quebec.—A record number of immigrants entering Canada through the port of Quebec, compared with the corresponding periods of recent years, is reported by the Harbor Commission. In the course of the first five weeks of navigation, over 30,000 immigration have disembarked. Immigration officials believe that over 200,000 will come in this year by the St. Lawrence route, as compared with 169,000 last season and 85,000 in 1925.

Visible to Naked Eye

Minneapolis, Minn.—Pons-Winnicko, the comet without a tail, came within 3,000,000 miles of the earth June 21st and was visible to the naked eye. The earth, according to Prof. William O. Beale, of the University of Minnesota, drew the comet from its course for a short time, but the comet's nucleus was not so disturbed. Pons-Winnicko back to its regular path.

Ruined By Earthquake

London.—An earthquake on May 23 ruined the greater part of Lingshow, in the northern part of Kiangsu province near the Mongolian border. It is reported in despatches from Shanghai. A message received by the Daily Mail says the chief magistrate and many others were killed and that all the towers of the city gates and two pagodas, 2,000 years old, were demolished.

Canadian Red Cross Society Campaign—Empire Day to Dominion Day

Canadian Drainage Flows
Into Mississippi River

The recent floods in the Mississippi river serve to draw attention to the fact that some of the water naturally draining into that great river originates in Canada. Milk river, the most northern tributary of any size of the Missouri drainage basin rises in Montana, crosses northerly into Alberta and after flowing easterly for about seventy miles recrosses into the United States and empties into the Missouri. With its own tributaries it drains a portion of Canada along the border in the provinces of Alberta and Saskatchewan amounting to some 9300

square miles. Part of this river in Canada is shown on the Lethbridge sheet of the Sectional Map of Canada issued by the Topographical Survey, Department of the Interior, Ottawa. This map sheet was published in the revised topographical edition in 1924 and although maps do get out of date with respect to some of the artificial features shown upon them, the natural features do not materially change and the map shows much detailed information of this nature.

Milk river occupies the southeasterly portion of this sheet and flows with many twists and turns through a region which varies from rolling to rough in character. It is separated from waters belonging to the

Hudson Bay drainage basin by the Milk River Ridge, a plateau extending some forty miles in an east and west direction by about one-third that distance north and south. Contour lines indicate the highest point upon this ridge to be about 1000 feet higher than Milk River itself. Several bodies of water lie upon this plateau, the largest of them, Ross lake having a depth of from 25 to 75 feet and an area of nearly two square miles.

Topographic maps such as this one presenting as they do the natural and artificial features of a region, furnish a wonderful basis for studying geographical features of every kind. The art of reading such maps must be developed just as in ordinary reading, if one is to obtain the most from it. The production of such highly detailed maps is quite a different proposition from that of ordinary maps with which the public may be more familiar. It is a costly undertaking and in order to protect against indiscriminate distribution and consequent waste the Department at Ottawa sets a nominal price of twenty five cents on map sheets of this series.

General Motors Employees
Organize Unique Assoc.

Four thousand five hundred employees in the plant and office of General Motors of Canada, at Oshawa, have formed, with the approval of the management, an employees association that marks a notable development in the progress of industrial relations.

The association, which is a highly democratic organization, controls all employee activities, such as athletics, dramatics, and outings; it provides a body through which grievances can be brought to the attention of the management; and the funds of the association provide relief in needy cases, temporary loans

to those financially embarrassed, and other helpful assistance.

Originally suggested by the department of industrial relations of the company, the proposal for the formation of the association was passed by the employees with scarcely a dissenting voice. It was the more acceptable both to management and employees because, unlike similar attempts, it is not made up of both; employees alone have a voice in the association.

Intense interest characterized the elections for the eighty representatives who comprise the board of directors of the association. Each director, representing approximately fifty of his fellow employees, provides a point of contact between individual and the association. The directors meet once a month, and executive committee of six holds weekly meetings in the periods between the directors' meetings.

To the spectator who watches one of the monthly meetings of this serious group of eighty workmen in the community hall erected by the company, there comes the realization of how far industrial relations have progressed in Canada. The chairman of the meeting is a company official, who does not have a vote; all the remainder are factory and office employees, meeting during working hours, their time paid by the company. These eighty men are in touch with every department of the factory and office. They make an individual liaison between management and employees.

Although it has been in existence for less than two months, the Association has already proved its merit. A certain grievance concerning the ventilation of one of the departments was carried over the head of a minor official to the factory manager and promptly remedied. A dispute over wages was amicably settled in another department, thanks to the assistance of the association.

The belief of the employees in their new association was evidenced

when they voted that every member should pay a yearly membership fee of \$1.00. Every employee of General Motors of Canada pays this fee, and the company has contributed dollar for dollar to the funds of the association. Thanks to the grouping of all athletic activities under the aegis of the association the directors have found it possible to issue a membership ticket which admits the bearer to all league games of General Motors sporting organizations.

"The primary object of the association," reads the inscription on the membership ticket, "is to develop and maintain on a definite and permanent basis, a spirit of mutual confidence and goodwill between those charged with the res-

ponsibility of directing the affairs of the company and employees generally; also by friendly and sympathetic co-operation one with the other, to bring added happiness and prosperity to all members of the General Motors family."

St. Paul's United Church of Canada

Sunday, July 3rd

2.30 p. m. Sunday School.

11 a. m. Morning Worship.

7 p. m. Evening Service.

You will enjoy the congregation singing.

Strangers and visitors cordially invited to the services.
